

## ***RAMROD Rotary Angle Broom Cleans Up***

Yorkton, SK – July 22, 2021 – It doesn't take much to make a mess on the road or in the yard, dirt and snow are always showing up where and when you don't want them. You need an all-season companion to get rid of that dirt, snow and debris. The RAMROD Rotary Angle Broom is that companion. Driveways, roads, sidewalks, lanes, parking lots, and other surfaces are all easily cleaned up by this versatile attachment.

The RAMROD Rotary Angle Broom has the flexibility to handle a wide range of environments. The hydraulically-driven broom has a 30 degree manual angle adjustment. The 50% steel and 50% poly bristles work together to keep your surfaces pristine, with the durability to last pass after pass. The 24" diameter x 48" wide sectional broom can also fit in compact places, ideal for space-limited locations like sidewalks. The large bristle hood keeps you safe by directing debris away from the operator.

Like all RAMROD attachments, the quick-on, quick-off design means you can easily take it on and off, and switch between different tools as you need.

The Rotary Angle Broom is one of over 70 attachments available from RAMROD.
