

NEW RAMROD A2450 ARTICULATING LOADER

Yorkton, SK – December 1, 2015 – RAMROD Equipment proudly offers the A2450 Articulating Wheel Loader. RAMROD's patented self-levelling telescoping lift arms and articulating design set the standard in the industry. Complete RAMROD Model A2450 packages feature:

- Articulating loader design allows the machine to articulate at the pivot joint which decreases the turning radius
- Telescoping heavy duty lift arms have an extended reach of 167" and a maximum lift of 1800 lbs.
- Self-levelling lift arms prevents load "fall back" on operator and eliminates the danger of losing a load during raising/lowering process
- The RAMROD Joystick and instrument panel is designed to be simple and efficient to operate
- Weather proof cab is ideal for all season use
- Boasting 2450 lbs of carrying capacity
- Auxiliary hydraulic outlets located in both the front and the rear of the machine and is capable of dual attachment operation
- Easy access to all machine components
- The large fuel tank capacity means the operator is able to work until the job gets done without refueling- save time and money
- Comprehensive warranty coverage
