

## ***RAMROD Pro-Series 930 gains Honda power***

Yorkton, SK – February 2021 – RAMROD and Honda are known for products you can trust. Bring them together, and you have something that you know will get the job done.

The RAMROD Pro-Series 930 now offers a 22.1 HP Honda engine. That means the easy start that Honda is known for, superior fuel economy, and high performance with smooth power delivery. Honda's reputation for reliability and performance is known worldwide, and RAMROD is proud to put that reputation to work.

That engine powers everything you love about RAMROD. The small size means you can fit in tight, confined spaces, with standard machine widths from 32" (81.28 cm) to 42" (106.68 cm). In that compact package you get the capability you need, with 930 lbs lift capacity, self-leveling lift arms and a powerful hydraulic pump. Full 360 degree operator visibility gives you a safe and unobstructed view of the task at hand.

Over 70 attachments can help you take on any job, and the quick attach accessory brackets ensure you can easily adapt to every situation.

RAMROD has always helped you stay ahead, and with Honda, you will stay further ahead than ever.
