

Get snow out of the way with RAMROD Snow Buckets

Yorkton, SK – Dec. 9, 2021 – When the snow begins to fly, there's one thing you need to do - move that snow out of your way. That's why this year you need to make that as easy as possible with a RAMROD High Capacity Snow Bucket. No matter how much snow falls or how large the area you need to clear is, this bucket will get the job done.

Our buckets are available in three sizes, 72", 84" and 96", which have a capacity of 34 cu-ft, 40 cu-ft, and 45 cu-ft respectively. That means we have a bucket for the machine you're using and the area you're clearing.

The sizes are different, but the RAMROD High Capacity Snow Bucket all have the same advantages. The see-through screen design allows you to easily see material from inside the cab. That means you're going to be able to get exactly what you need to load. The reversible and replaceable high-carbon steel cutting edge is strong, durable and essential for easily pushing through hard-packed snow.

The high capacity and heavy duty construction ensures that these buckets can also be used year-round for a wide range of bulky materials, meaning your investment keeps working for you even after the snow melts.

The universal quick attach mount is compatible with most major skid steer brands,

You can't avoid snow, but you can get it out of your way. The RAMROD High Capacity Snow Bucket has the durability and capacity to get it out of the way as fast as possible.

High Capacity Snow Buckets are one of over 70 attachments available from RAMROD.
