

## ***Carry it all with RAMROD Pallet Forks***

Yorkton, SK – Sept. 29, 2021 – Mini-loaders and skid-loaders are made to carry. Pallet forks are a necessity to get the most out of your loader, making it easy to move anything you can find wherever you need it to go. RAMROD offers a full line of pallet forks to fit your machine and your needs.

Compact units come complete with 41" tines that can adjust to a maximum width of 30". Skid loader pallet forks have extra utility, with 42" standard utility or 48" heavy duty industrial forks, featuring flip style release pins, adjustable from 8" to 47". Adjustment is easy, and steel construction ensures strength you can depend on and long-lasting durability. A back guard is included to help you safely move pallets without fear of injury. All pallet forks have a quick attach mounting plate to help you switch easily between attachments and jobs.

The wide range of sizes on offer mean we have the pallet forks you need, whether it's a large unit so your skid-loader can carry a big load, or a compact one for a mini-loader, able to maneuver through the tightest spaces, there is a pallet fork for you.

Pallet forks are one of over 70 attachments available from RAMROD.
